

**HONOUR OUR PARENTS EVERYDAY**

**(HOPE)**

# HOPE

***“ Make everyone happy. Specially, help your parents and make them happy.***

***Whatever may be your circumstances, look after your parents well even if you have to struggle hard. It is your foremost duty to bring up your children and look after your parents.***

***Taking care of your parents is your responsibility only”.***

# HOPE

*But these days, there are many who neglect their aged parents. As soon as they acquire a degree, they find a job somewhere and leave their aged parents to fend for themselves.*

*First of all, make your parents happy and look after your children well. How can you be happy in life if your parents are not happy?*

# HOPE

*You might have acquired high degrees, but how can society love you if you do not love your own parents.”*

*The parents have given you life. They are responsible for your birth. Hence you have to love your parents wholeheartedly under all circumstances.*

*You have to realise the truth that first and foremost your mother is God and next your father and they are protecting you constantly.*

# HOPE

*You may encounter any number of obstacles in this task, but you should overcome them and march forward. You may even stake your life in this task of restoring the society to right path.*

*When you undertake the propagation of such ideals you can bring about wonderful transformation in society quickly.*
